MU-002 STORAGE SOLUTION

Organizer for Marvel United KS Extras Box

This kit provides storage for cards, minis, and tokens

Construction Tips

1) Each piece should be removed from the frames with gentle pressure back and forth. You should not need a knife to cut pieces free.

2) Our organizers are designed to be glued together. We use Sobo craft glue, but any glue that is tacky and dries clear will work fine. Tacky glue assists with building as it holds better during construction. You can use painter's/masking tape for some joins, but glue is always best.

3) Ensure you cleanup excess glue as you build. This is especially important in card lanes where dividers will be used or in spaces where a tray will be stored.

4) Check the build diagrams included in the package for reference, including all parts, as well as build tips specific to this insert.

5) **Always** **dry fit pieces first** to ensure a good fit and to better understand how the kit goes together.

6) Allow your finished insert to dry overnight.

7) You can optionally sand and even stain your insert.

8) Don't hesitate to reach out to us if you have questions!

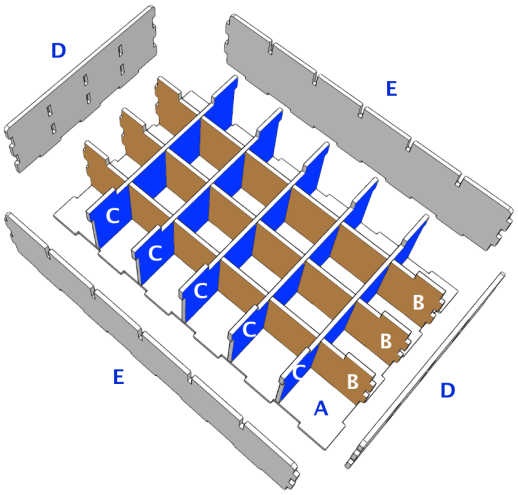
Please reference the diagrams to understand how each component fits together. Also, dry fit the pieces to understand how it goes together and ensure everything is oriented properly before applying glue. Finally, cleanup excess glue to ensure a proper fit and finish, especially in card, rail, and tray storage areas.

Building the Deep Minis Tray

The Deep Minis Tray is designed to store twenty-four (24) minis and has cutouts on top of the tray to store villian dashboards.

1) Orient base (**A**) as illustrated.
2) Next, apply glue to the bottom and side tabs of inner walls **(B, B, B)** and connect to base **(A)**. **{brown}**
3) Next, apply glue to the bottom and side tabs of cross walls **(C, C, C, C, C)** and connect. **{blue}**
4) Next, apply glue to the bottom and side tabs of outer walls **(E, E)** and connect.
5) Finally, apply glue to the bottom outer walls **(D, D)** and connect.



Building the Card Tray #1

Card Tray #1 offers eleven (11) thicker card storage slots and nine (9) hero deck slots. This tray is built from plates #1 and #2.

1) Orient base (**H**) as illustrated.
2) Next, apply glue to the bottom and side tabs of end wall (**J**) and connect to base (**H**).
3) Next, apply glue to the bottom of outer wall (**K**) and connect. Repeat on the other side. Ensure you orient the walls properly with the wider slots to the rear.
4) Finally, apply glue to the bottom and side tabs of end wall (**J**) and connect.

Once your tray has had a few minutes to dry, place a few dividers (**Z**) in the tray to ensure a perfect fit, once dry.

Building the Card Tray #2

Card Tray #2 is designed to store hero decks and offers twenty-three (23) hero storage slots. This tray is built from plates #3 and #2.

1) Orient base (**H**) as illustrated.
2) Next, apply glue to the bottom and side tabs of end wall (**J**) and connect to base (**H**).
3) Next, apply glue to the bottom of outer wall (**K**) and connect. Repeat on the other side.
4) Finally, apply glue to the bottom and side tabs of end wall (**J**) and connect.

Once your tray has had a few minutes to dry, place a few dividers (**Z**) in the tray to ensure a perfect fit, once dry.

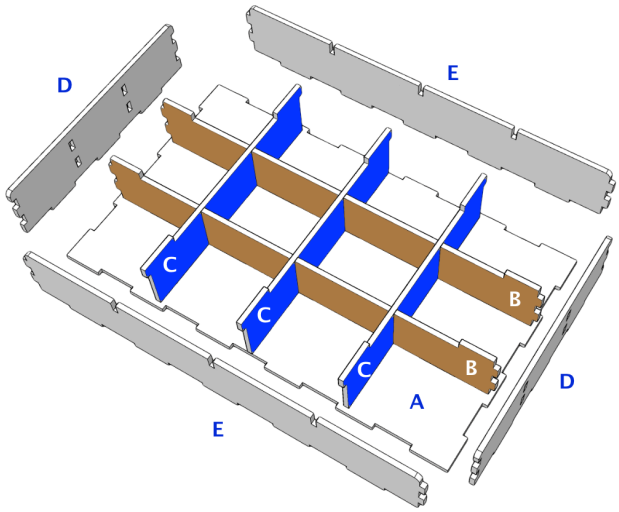
PLATE #11

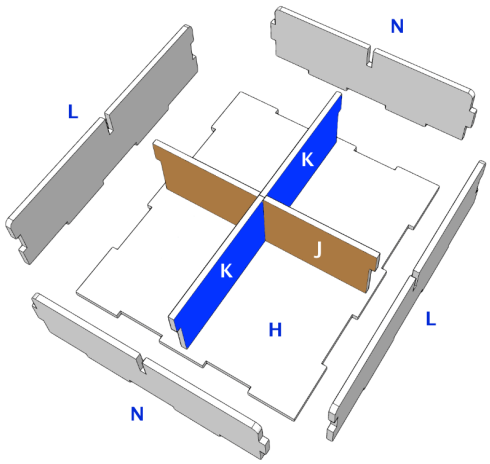
Please reference the diagrams to understand how each component fits together. Also, dry fit the pieces to understand how it goes together and ensure everything is oriented properly before applying glue. Finally, cleanup excess glue to ensure a proper fit and finish, especially in card, rail, and tray storage areas.

Building the Shallow Minis Tray

The Shallow Minis Tray is designed to store twelve (12) small minis and villian dashboards in the cutout on top of the tray.

1) Orient base (**A**) as illustrated.
2) Next, apply glue to the bottom and side tabs of inner walls **(B, B)** and connect to base **(A)**. {brown}
3) Next, apply glue to the bottom and side tabs of cross walls **(C, C, C)** and connect. {blue}
4) Next, apply glue to the bottom and side tabs of outer walls **(E, E)** and connect.
5) Finally, apply glue to the bottom of outer walls **(D, D)** and connect.



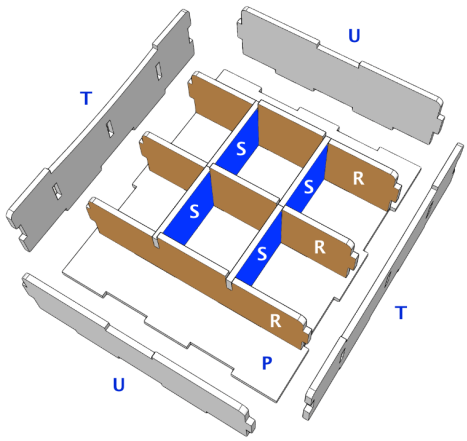


Building the Small Minis Tray

The Small Minis Tray is designed to store as many as four (4) minis.

1) Orient base (**H**) as illustrated.
2) Next, apply glue to the bottom and side tabs of outer wall (**N**) and connect to base (**H**).
3) Next, apply glue to the bottom of outer walls (**L, L**) and connect.
4) Next, apply glue to the bottom and side tabs of outer wall (**N**) and connect to base (**H**).

Once you determine how you want to store your minis, you can then place and glue inner wall (J) and splitters (K, K).



Building the Token Tray

The Token Tray is designed to store tokens from the expansions.

1) Orient base (**P**) as illustrated.
2) Next, apply glue to the bottom and side tabs of inner walls **(R, R, R)** and connect to base **(P)**. {brown}
3) Next, apply glue to the bottom of outer walls **(T, T)** and connect.
4) Next, apply glue to the bottom and side tabs of outer walls **(U, U)** and connect.

Allow the tray to dry for a few minutes and then place the lid on it. Note that the lid only attaches in one specific position.

Once you determine how you would like to store your tokens, you can optionally glue in one or more of the splitters (S). {blue}

Storing Your Trays in the Box

Step One:

Place a Card Tray (**A**) and the Deep Minis Tray (**B**) into the box.

Step Two:

Next, place the other Card Tray (**C**) and the Shallow Minis Tray (**D**) into the box.

Step Three:

Finally, place the Small Minis Tray (**E**) and the Token Tray (**F**) into the box and close the lid.
