

APOCALYPSE STORAGE SOLUTION

Model OTHAPOC-001 Miniatures Storage Tray for The Others: 7 Sins™ Apocalypse Box

This tray provides storage for minis and tiles and is stored in the Apocalypse box.

General Construction Tips

- 1) Each piece should be removed from the frames with gentle pressure back and forth. You should not need a knife to cut pieces free.
- 2) Our inserts are designed to be glued together. We use Sobo craft glue, but any glue that is tacky and dries clear will work fine. Tacky glue assists with building as it holds better during construction. You can use painter's/masking tape for some joins, but glue is always best.
- 3) Keep some paper towels handy for cleanup during build.
- 4) Ensure you cleanup excess glue as you build. This is especially important in card lanes where dividers will be used or in spaces where a tray will be stored.
- 5) Check the build diagram included in the package for reference, including all parts, as well as build tips specific to this insert.
- 6) Always dry fit pieces first to ensure a good fit and to better understand how the kit goes together.
- 7) Allow your finished insert to dry overnight.
- 8) You can optionally sand and even stain your insert.
- 9) Don't hesitate to reach out to us if you have questions!

Unlike many of our inserts, this is not a licensed insert. All trademarks/marks are the property of their respective owners.

Build Instructions

Please reference the diagrams to understand how each component fits together. Also, dry fit the pieces to understand how it goes together and ensure everything is oriented properly before applying glue. Finally, cleanup excess glue especially around rails to ensure a proper fit and finish.

Building the Small Minis Tray

- 1) Place base (A) down on your workspace in the orientation noted to the right.
- 2) Next, apply glue to the bottom of the 7 inner walls (B) and connect to base (A).
- 3) Next, place glue on the right end tabs of all inner walls (B) and on the bottom of side wall (C) and connect to base (A). Repeat on the left side.
- 4) Finally, apply glue to the bottom and end tabs of end wall (B) and connect to base (A). Repeat on the other side.
- 5) Once your tray is dry and you have decided how you want to store your minis, you can apply a small dab of glue to the bottom of dividers (Z) and place your dividers.

Building the Base Insert

- 1) Place base (D) down on your workspace in the orientation noted to the left.
- 2) Next, glue support (V) to rail (W) as shown in figure #1. Repeat for the other rail and support (V & W).
- 3) Next, glue both rail supports to outer wall (J) as shown.
- 4) Next, glue support (T) to rail (U) as shown in figure #1. Repeat for the other rail and support (T & U).
- 5) Next, glue both rail supports to inner wall (E) as shown.
- 6) Next, glue the end tabs of mini support (N) and connect to outer wall (J).
- 7) Next, place glue on the right end tab of inner wall (G) and connect to inner wall (E).
- 8) Next, place glue on the right end tab of inner wall (H) and connect to inner wall (E).
- 9) Next, place glue on the left end tab of inner divider wall (F) and connect to inner wall (E).
- 10) Next place glue on the bottom of the structure and connect to base (D).
- 11) Next, place glue on the bottom of short inner wall (I) and connect to base (D).
- 12) Next, place glue on the end tabs of inner walls (G, H) and the bottom and end tabs of outer wall (J) and connect to base (D).
- 13) Next, place glue on end tab of inner wall (E) and the bottom of outer wall (K) and connect to base (D).
- 14) Next, place glue on the end tab of short inner wall (I) and the bottom of outer wall (L) and connect to base (D).
- 15) Finally, place glue on the end tab of inner divider wall (F) and the bottom and end tabs of outer wall (M) and connect to base (D).
- 16) Once the insert has had time to dry and you have an understanding of how you want to store your minis, feel free to place the dividers (X, Y).

Congratulations! You have completed the construction of your new storage insert. If you have any questions/ concerns, don't hesitate to contact us. Finally, please take a moment to review your new solution on our website.
