

# GH-001 UPGRADE KIT

This upgrade kit provides support to store the Forgotten Circles expansion

This kit requires that you already own a GH-001 storage solution

## Construction Tips

- 1) Each piece should be removed from the frames with gentle pressure back and forth. You should not need a knife to cut pieces free.
- 2) Our inserts are designed to be glued together. We use Sobo craft glue, but any glue that is tacky and dries clear will work fine. Tacky glue assists with building as it holds better during construction. You can use painter's/masking tape for some joins, but glue is always best.
- 3) Keep some paper towels handy for cleanup during build.
- 4) Ensure you cleanup excess glue as you build. This is especially important in card lanes where dividers will be used or in spaces where a tray will be stored.
- 5) Check the build diagram included in the package for reference, including all parts, as well as build tips specific to this insert.
- 6) Always dry fit pieces first to ensure a good fit and to better understand how the kit goes together.
- 7) Allow your finished insert to dry overnight.
- 8) You can optionally sand and even stain your insert.
- 9) Don't hesitate to reach out to us if you have questions!

# Build Instructions

## GH-001-UPG KIT NOTES

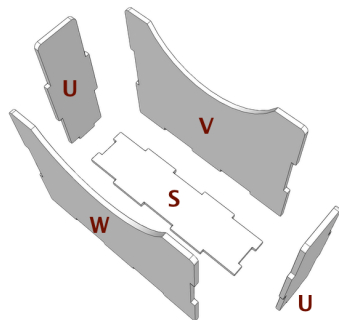

This kit contains six (6) trays that replace several trays in your GH-001 solution. These new trays provide room to allow Forgotten Circles to be stored in the same space as the base game previously. It is best if you build the replacement trays first and then transfer the contents of your existing trays, as well as the Forgotten Circles components, into the new trays. In most cases, the components will go in the same places with a few exceptions.

- 1) The character pad tray has been eliminated. You should store your character pads with your tiles, either on top of the trays or in your top tray. There is ample room to do this without creating additional lid lift.
- 2) The large "REFERENCES" divider is no longer needed and is impossible to utilize if you sleeve your cards. We have provided a new large "RIFT" divider. We suggest you store your reference cards (x4) at the very front of the card tray.
- 3) We have provided a new small divider "FC ITEMS" for your convenience.
- 4) You will be removing:

- character pad tray - replace by nothing
- terrain tray #1 - replaced by long terrain tray
- terrain tray #2 - replaced by medium terrain tray
- monster stat tray - replaced by monster stat tray without divider option
- status token tray - replaced by status token tray that is shorter, **but you need your existing tray lid**

5) You will be adding:

- low-profile character tray for your new character class
- monster tray for Forgotten Circles monsters

### Building the Monster Stat Tray

This tray is used to store the monster stat sheets and envelopes.

- 1) Place base (S) down on your workspace in the orientation noted.
- 2) Next, apply glue to the bottom and side tabs of end wall (U) and connect to base (S).
- 3) Next, apply glue to the bottom of outer wall (W) and connect to base (S). Etching should face outward. Repeat on the other side for outer wall (V).
- 4) Finally, apply glue to the bottom and side tabs of end wall (U) and connect.

### Building the Status Token Tray

The status token tray provides storage for your status tokens, including regenerate tokens from Forgotten Circles.

- 1) Place base (K) down on your workspace in the orientation noted to the right.
- 2) Next, apply glue to the bottom and end tabs of the two (2) tall inner walls (L) and connect to base (K).
- 3) Next, apply glue to the bottom and end tabs of divider (M) and connect in the orientation shown.
- 4) Next, apply glue to the bottom and end tabs of end wall (O) and connect. Repeat on the other side.
- 5) Next, apply glue to the bottom of outer wall (P) and connect in the orientation shown.
- 6) Next, apply glue to the bottom of outer wall (N) and connect in the orientation shown.
- 7) Next, apply glue to the side tabs of the three (3) inner dividers (Z) and connect.
- 8) After a few minutes, place the lid on the tray to ensure a perfect fit.

# Build Instructions

Please reference the diagrams to understand how each component fits together. Also, dry fit the pieces to understand how it goes together and ensure everything is oriented properly before applying glue. Finally, cleanup excess glue to ensure a proper fit and finish, especially in card areas.

## Building the Low Profile Small Character Tray (1x)

This single tray provides storage for your *Forgotten Circles* expansion character cards, character ability cards, character board, standee, mini, and tokens.

- 1) Lay base (A) down on your workspace in the orientation noted.
- 2) Next, place glue on the left end tab of inner wall (C) and connect to inner wall (B) and then place glue on the bottom of this structure and connect to base (A).
- 3) Next, place glue on the left end tab of inner wall (E) and connect to inner wall (D) and then place glue on the bottom of this structure and connect to base (A). Note that the rounded corners should face inward.
- 4) Next, place glue on the end tab of inner wall (B) and the bottom of outer wall (F) and connect.
- 5) Next, place glue on the end tab of inner wall (E), the bottom and side tabs of end wall (G), and connect.
- 6) Next, place glue on the end tab of inner wall (D) and the bottom of outer wall (H) and connect.
- 7) Next, place glue on the side tabs and bottom of end wall (I) and connect.
- 8) Finally, after allowing 5 minutes to dry, place the tray lid on the tray.

## Building the Forgotten Circles Monster Tray

This single small tray provides storage for *Forgotton Circles* monsters and your element discs. Be careful punching the small holes out of these walls!

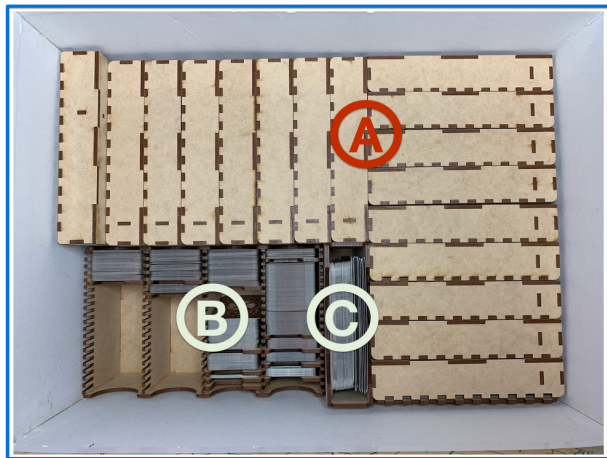

- 1) Lay base (N) down on your workspace in the orientation noted.
- 2) Next, glue on the bottom and side tabs of inner wall (O, highlighted in brown) and connect to base (N). Note the position of the etching. Repeat for inner wall (P, highlighted in brown).
- 3) Next, place glue on the side tabs of divider wall (R, highlighted in purple) and connect. Repeat for the other two divider walls (R).
- 4) Next, place glue on the bottom of outer wall (T) and connect. Repeat on the other side.
- 5) Next, place glue on the bottom and side tabs of outer wall (S) and connect. Note the engraving position on the image.
- 6) Next, place glue on the bottom and side tabs of outer wall (U) and connect.

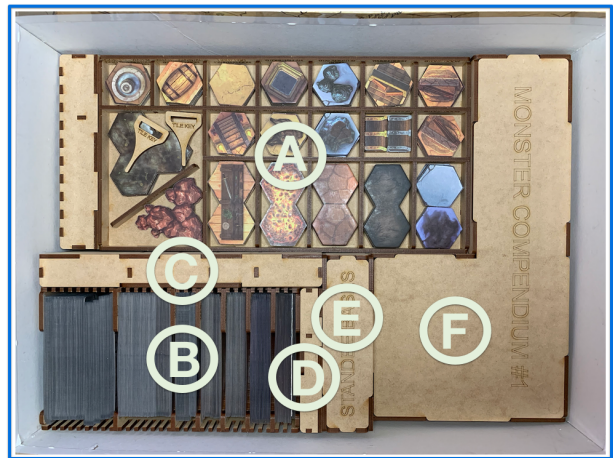

# Storing Your Trays in the Box

**Step One:** Place 17 character trays (A) in the box as illustrated with the taller one on the left (the low-profile character box is not placed yet). Then place the small card tray (B) and the monster stat tray (C).

**Step Two:** Next, place the long terrain tray (A), large card tray (B), token tray (C), summon tray (D), standees tray (E), and the monster compendium #1 tray (F) in the box.

**Step Three:** Next, place the medium terrain tray (A), low-profile character tray (B), and the monster compendium #2 tray (C) in the box.

**Step Four:** Next, place the Forgotten Circles monster tray (A) and the status tokens tray (B) in the box.

**Step Five:** Finally, place your GH-002 top tray on top of the trays if you have one. If not, carefully store the tiles and other larger items on top of your trays and close the box
