

# MC-002 STORAGE SOLUTION

Storage Organizer for Marvel Champions: Red Skull expansion-sized box

Organizer kit includes storage for large/small cards and player hit point dials

## Construction Tips

- 1) Each piece should be removed from the frames with gentle pressure back and forth. You should not need a knife to cut pieces free.
- 2) Our inserts are designed to be glued together. We use Sobo craft glue, but any glue that is tacky and dries clear will work fine. Tacky glue assists with building as it holds better during construction. You can use painter's/masking tape for some joins, but glue is always best.
- 3) Ensure you cleanup excess glue as you build. This is especially important in card lanes where dividers will be used or in spaces where a tray will be stored.
- 4) Check the build diagrams included in the package for reference, including all parts, as well as build tips specific to this insert.
- 5) Always **dry fit pieces first** to ensure a good fit and to better understand how the kit goes together.
- 6) Allow your finished insert to dry overnight.
- 7) You can optionally sand and even stain your insert.
- 8) Don't hesitate to reach out to us if you have questions!

Please reference the diagrams to understand how each component fits together. Also, dry fit the pieces to understand how it goes together and ensure everything is oriented properly before applying glue. Finally, cleanup excess glue to ensure a proper fit and finish, especially in card, rail, and tray storage areas.

## Building the Organizer

This organizer is designed to store large and small cards, as well as the four (4) player hit point dials.

- 1) Lay base (A) down on your workspace.
- 2) Next, apply glue to the left side tabs of short inner walls (C, C) and connect to inner wall (B). {brown}
- 3) Next, apply glue to the bottom and side tabs of the structure you built in step #2 and connect to base (A).
- 4) Next, apply glue to the bottom and side tabs of outer wall (D) and connect.
- 5) Next, apply glue to the bottom of outer wall (E) and connect. Repeat on the other side with outer wall (F).
- 6) Finally, apply glue to the bottom and side tabs of outer wall (G) and connect.

Once your organizer has had a few minutes to dry, insert a few dividers (Y, Z) here and there to ensure a perfect fit.
