

ANKH-002 STORAGE SOLUTION

Organizer for Ankh:Tomb of Wonders

This kit provides storage for cards, minis, boards, and tokens

Construction Tips

- 1) Each piece should be removed from the frames with gentle pressure back and forth. You should not need a knife to cut pieces free.
- 2) Our organizers are designed to be glued together. We use Sobo craft glue, but any glue that is tacky and dries clear will work fine. Tacky glue assists with building as it holds better during construction. You can use painter's/masking tape for some joins, but glue is always best.
- 3) Ensure you cleanup excess glue as you build. This is especially important in card lanes where dividers will be used or in spaces where a tray will be stored.
- 4) Check the build diagrams included in the package for reference, including all parts, as well as build tips specific to this insert.
- 5) **Always dry fit pieces first** to ensure a good fit and to better understand how the kit goes together.
- 6) Allow your finished insert to dry overnight.
- 7) You can optionally sand and even stain your insert.
- 8) Don't hesitate to reach out to us if you have questions!

Build Instructions

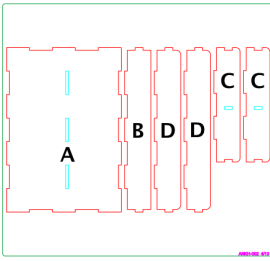

PLATE #4

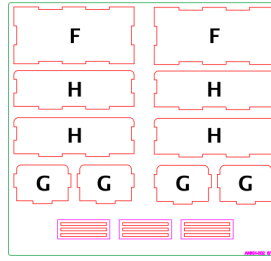

PLATE #5

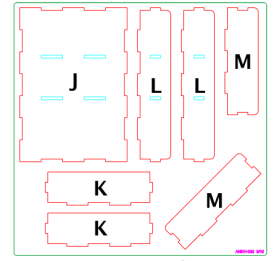

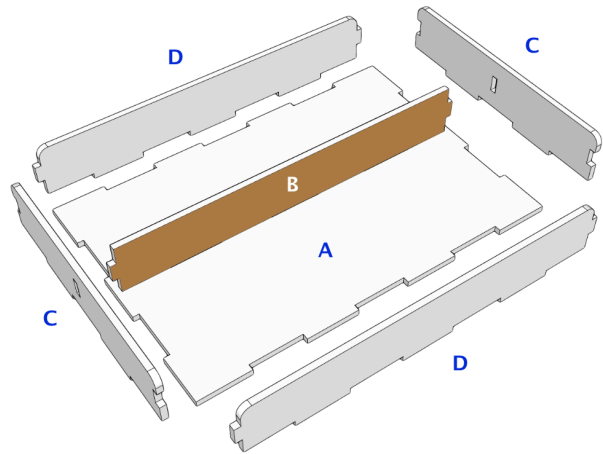

PLATE #9

Please reference the diagrams to understand how each component fits together. Also, dry fit the pieces to understand how it goes together and ensure everything is oriented properly before applying glue. Finally, cleanup excess glue to ensure a proper fit and finish, especially in card, rail, and tray storage areas.

Building the Temple/Obelisk Tray

The Temple/Obelisk Tray is designed to hold the plastic temple and obelisk tokens.

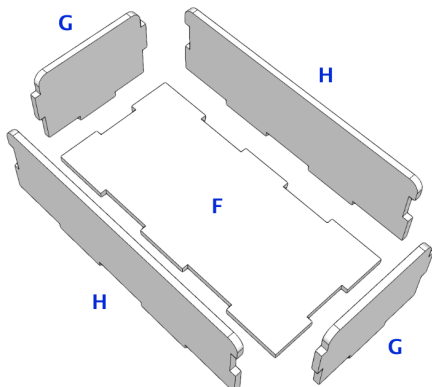

- 1) Orient base (A) as illustrated.
- 2) Next, apply glue to the bottom and side tabs of inner wall (B) and connect to base (A). **{brown}**
- 3) Next, apply glue to the bottom of end walls (C, C) and connect.
- 4) Finally, apply glue to the bottom and side tabs of outer walls (D, D) and connect.

Building the God Token Trays

The two God Token Trays offer storage for warriors, priests, mini bases, and tokens for the two gods in Tomb of Wonders.

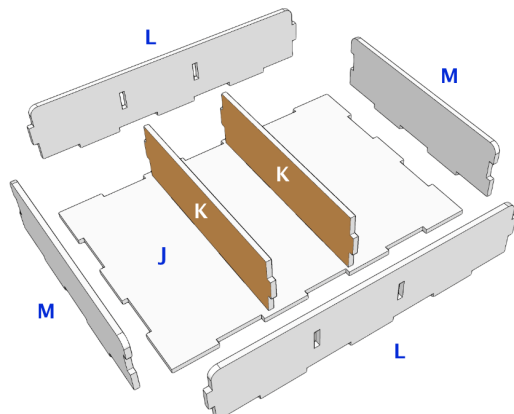

- 1) Orient base (F) as illustrated.
- 2) Next, apply glue to the bottom and side tabs of end wall (G) and connect to base (F).
- 3) Next, apply glue to the bottom of outer walls (H, H) and connect.
- 4) Finally, apply glue to the bottom and side tabs of end wall (G) and connect.
- 5) Repeat for the other God Token Tray.

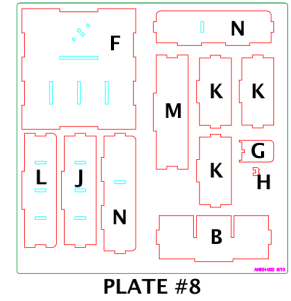

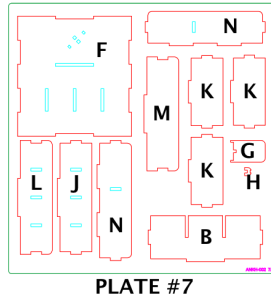

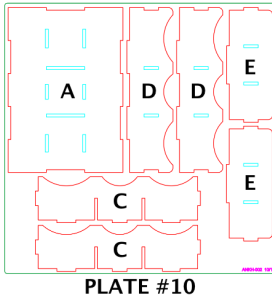

Building the Spinx/Pyramid Tray

The Spinx/Pyramid Tray is designed to hold the sphinxes, pyramids, water tokens, city tokens, and underworld tokens.

- 1) Orient base (J) as illustrated.
- 2) Next, apply glue to the bottom and side tabs of inner walls (K, K) and connect to base (J). **{brown}**
- 3) Next, apply glue to the bottom and side tabs of outer walls (L, L) and connect.
- 4) Finally, apply glue to the bottom of end walls (M, M) and connect.

Build Instructions

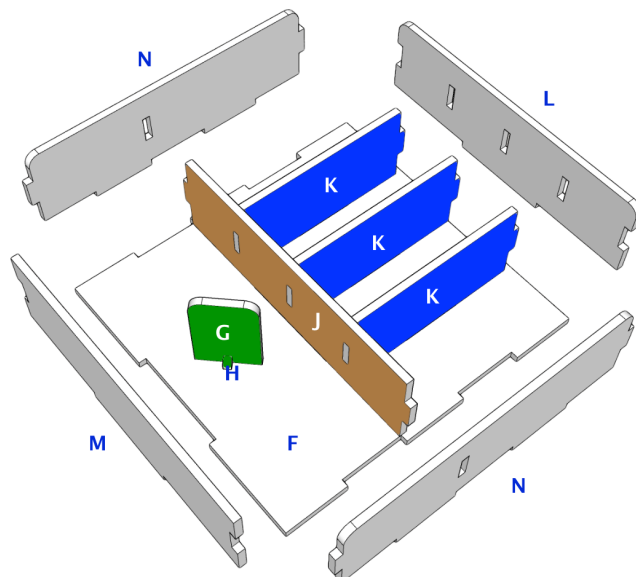

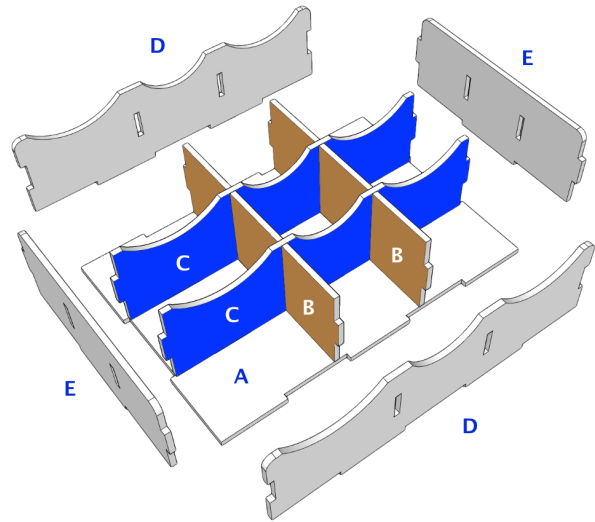

Please reference the diagrams to understand how each component fits together. Also, dry fit the pieces to understand how it goes together and ensure everything is oriented properly before applying glue. Finally, cleanup excess glue to ensure a proper fit and finish, especially in card, rail, and tray storage areas.

Building the Mini-9 Tray

The Mini-9 Tray is designed to store nine small minis.

- 1) Orient base (A) as illustrated.
- 2) Next, apply glue to the bottom and side tabs of inner walls (B, B) and connect to base (A). **{brown}**
- 3) Next, apply glue to the bottom and side tabs of inner walls (C, C) and connect. **Note that orientation matters. {blue}**
- 4) Next, apply glue to the bottom and side tabs of end walls (E, E) and connect.
- 5) Finally, apply glue to the bottom of outer walls (D, D) and connect.

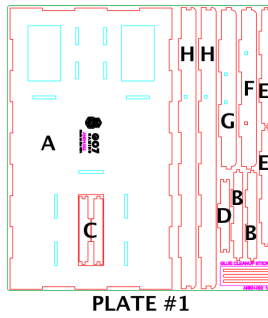

Building Mini-5 Trays

The two Mini-5 Trays provide storage for five small minis each.

- 1) Orient base (F) as illustrated.
- 2) Next, apply glue to the left side tabs of inner walls (K, K, K) and connect to inner wall (J) and then apply glue to the bottom and side tabs of the structure and connect to base (F).
- 3) Next, apply glue to the bottom of splitter (G) and connect to brace (H) and then apply glue to the bottom of the structure and connect to base. **{green}**
- 4) Next, apply glue to the bottom and side tabs of outer walls (N, N) and connect.
- 5) Finally, apply glue to the bottom of outer walls (L, M) and connect.
- 6) Repeat for the other Mini-5 Tray.

Build Instructions

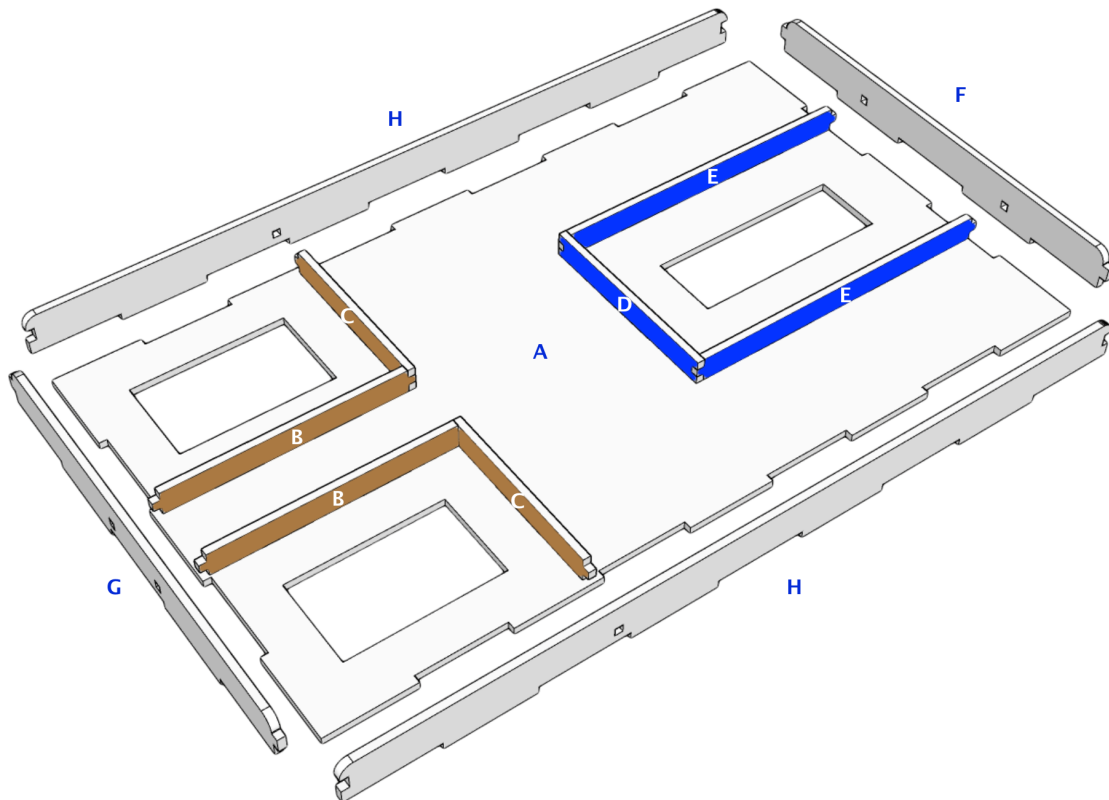

Please reference the diagrams to understand how each component fits together. Also, dry fit the pieces to understand how it goes together and ensure everything is oriented properly before applying glue. Finally, cleanup excess glue to ensure a proper fit and finish, especially in card, rail, and tray storage areas.

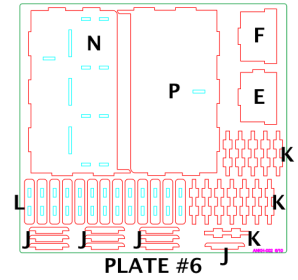

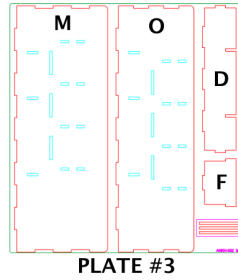

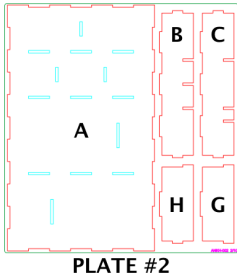

Building the Top Tray

The Top Tray is designed to store the medium and large cards, as well as the merged god dashboards and god dashboards.

- 1) Orient base (A) as illustrated.
- 2) Next, apply glue to the bottom and side tabs of inner wall (B), apply glue to the left side tab of inner wall (C), connect together, apply glue to the bottom of the structure and connect to base (A). Repeat on the other side. **{brown}**
- 3) Next, apply glue to the bottom and side tabs of inner walls (E, E), connect to inner wall (D), apply glue to the bottom of the structure and connect to base. **{blue}**
- 4) Next, apply glue to the bottom and side tabs of outer walls (F, G) and connect .
- 5) Finally, apply glue to the bottom of outer walls (H, H) and connect.

Build Instructions

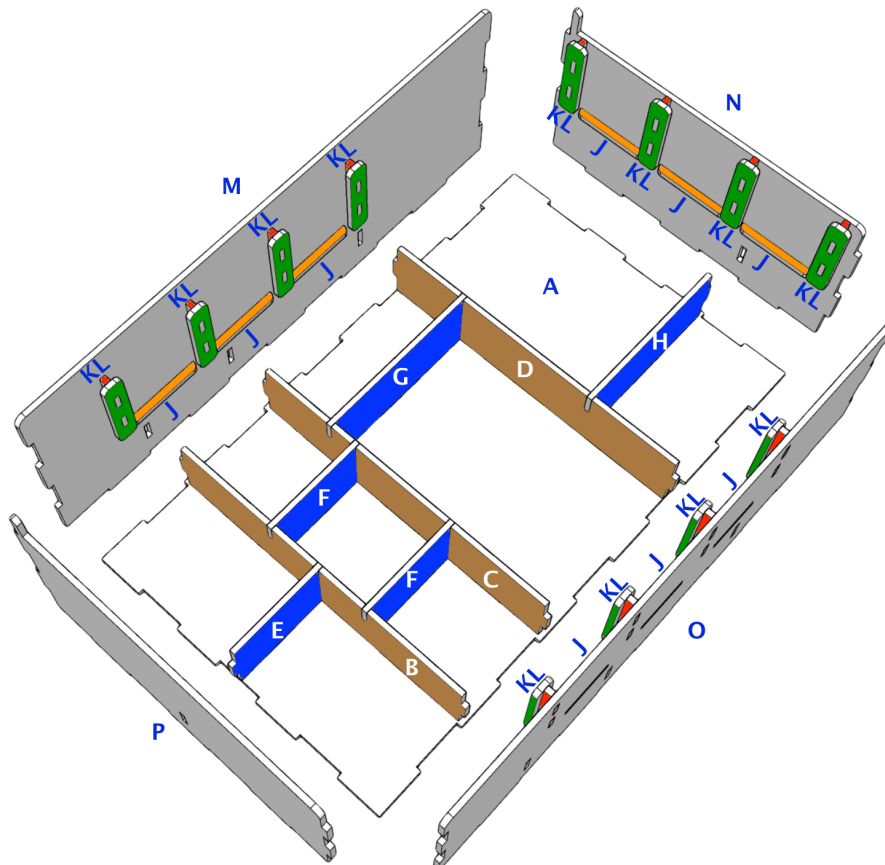

Please reference the diagrams to understand how each component fits together. Also, dry fit the pieces to understand how it goes together and ensure everything is oriented properly before applying glue. Finally, cleanup excess glue to ensure a proper fit and finish, especially in card, rail, and tray storage areas.

Building the Main Insert

The Main Insert is designed to store the sixteen large minis. Note: this kit includes 1x extra J, K, and L pieces.

- 1) Orient base (A) as illustrated.
- 2) Next, apply glue to one side of the twelve supports (K,K,K,K,K,K,K,K,K,K,K,K) and connect to the twelve rails (L,L,L,L,L,L,L,L,L,L,L,L).
- 3) Next, apply glue to the other side of the supports and connect the twelve rail assemblies (KL,KL,KL,KL,KL,KL,KL,KL,KL,KL,KL,KL) to outer walls (M, N, O).
- 4) Next, apply glue to the side tabs of support floors (J,J,J,J,J,J,J,J) and connect to outer walls (M, N, O).
- 5) Next, apply glue to the bottom and side tabs of inner walls (B, C, D) and connect to base (A). {brown}
- 6) Next, apply glue to splitters (E, F, F, G, H) and connect. {blue}
- 7) Next, apply glue to the bottom and side tabs of outer walls (N, P) and connect.
- 8) Finally, apply glue to the bottom of outer walls (M, O) and connect.

Storing Your Trays in the Box

Step One:

Place the Main Insert (A), the Sphinx/Pyramid Tray (B), and the two God Token Trays (C) into the box.

Step Two:

Next, place the Temple/Obelisk Tray (D) and the first 5-Mini Tray (E) into the box.

Step Three:

Finally, place the 9-Mini Tray (F), the second 5-Mini Tray (G), and the Top Tray (H) into the box and close it.
