

MD2-002 STORAGE SOLUTION

Organizer Compatible with Massive Darkness 2: Darkbringer

This kit provides storage for cards, tokens, and minis.

Construction Tips

- 1) Each piece should be removed from the frames with gentle pressure back and forth. You should not need a knife to cut pieces free.
- 2) Our organizers are designed to be glued together. We use Sobo craft glue, but any glue that is tacky and dries clear will work fine. Tacky glue assists with building as it holds better during construction. You can use painter's/masking tape for some joins, but glue is always best.
- 3) Ensure you cleanup excess glue as you build. This is especially important in card lanes where dividers will be used or in spaces where a tray will be stored.
- 4) Check the build diagrams included in the package for reference, including all parts, as well as build tips specific to this insert.
- 5) **Always dry fit pieces first** to ensure a good fit and to better understand how the kit goes together.
- 6) Allow your finished insert to dry overnight.
- 7) You can optionally sand and even stain your insert.
- 8) Don't hesitate to reach out to us if you have questions!

Please reference the diagrams to understand how each component fits together. Also, dry fit the pieces to understand how it goes together and ensure everything is oriented properly before applying glue. Finally, cleanup excess glue to ensure a proper fit and finish, especially in card, rail, and tray storage areas.

Building the Main Insert

The Main Insert is designed to hold larger minis, jumbo cards, and large cards. The map tiles in this KS extras box should be stored in the base game insert.

- 1) Orient base (A) as illustrated.
- 2) Next, apply glue to the bottom and side tabs of inner walls (B, C, D), connect inner walls (C, D) to card wall (B), and connect to base (A). **{brown}**
- 3) Next, apply glue to the bottom and side tabs of inner walls (E, F) and connect to base (A). **{blue}**
- 4) Next, apply glue to the side tabs of supports (M, M), connect to outer wall (N), and then connect card wall (L). **{green}**
- 5) Next, apply glue to the bottom and side tabs of splitters (K, K, J, J, G, H) and connect. **{purple}**
- 6) Next, apply glue to the bottom and side tabs of outer wall (Q) and connect.
- 7) Next, apply glue to the bottom of outer wall (N) and connect.
- 8) Next, apply glue to the bottom and side tabs of outer wall (O) and connect.
- 9) Finally, apply glue to the bottom of outer wall (P) and connect.

Please reference the diagrams to understand how each component fits together. Also, dry fit the pieces to understand how it goes together and ensure everything is oriented properly before applying glue. Finally, cleanup excess glue to ensure a proper fit and finish, especially in card, rail, and tray storage areas.

Building the Mini Tray

The Mini Tray is designed to store small minis and the two types of tokens provided in this KS extra box and the tray is adjustable to suit your storage needs.

- 1) Orient base (A) as illustrated.
- 2) Next, apply glue to the bottom and side tabs of inner walls (C, D, E, E) and connect to outer wall (B) and connect to base (A). **{brown}**
- 3) Next, apply glue to the bottom and side tabs of short walls (F, G, H) and connect. **{blue}**
- 4) Next, apply glue to the bottom and side tabs of outer wall (J) and connect.
- 5) Next, apply glue to the bottom of outer wall (K) and connect.
- 6) Next, apply glue to the bottom and side tabs of outer wall (L) and connect.
- 7) Next, apply glue to the bottom of outer wall (M) and connect.
- 8) Finally, apply glue to the bottom and side tabs of splitter (N) and connect. **{green}**
- 9) Once you have decided where to store everything, glue splitters (X, Y, Z) and name tabs, as needed.
